

EMORY ORTHOPAEDICS SUMMER SCHOLARS INTERNSHIP PROGRAM

The Emory University Department of Orthopaedics offers a six-week summer immersion program designed to introduce motivated undergraduate and early medical students to the field of orthopaedic surgery.

Participants engage in structured clinical observation, professional mentorship, and educational programming intended to deepen understanding of orthopaedic practice, academic medicine, and career pathways in healthcare. The program emphasizes exposure, preparation, and informed exploration of the field.

WHAT YOU'LL EXPERIENCE

- **Clinical and surgical experience with a renowned team of Orthopaedic Surgeons**
- **Faculty Mentorship**
- **Hands-on skill sessions**
- **Discussion groups and seminars to help you get ahead**
