

Responsible Conduct RCR of Research

How to Register for the Online RCR Course in Brainer

NOTE 1: Please forgive inconsistencies between various screenshots regarding names of certain items.

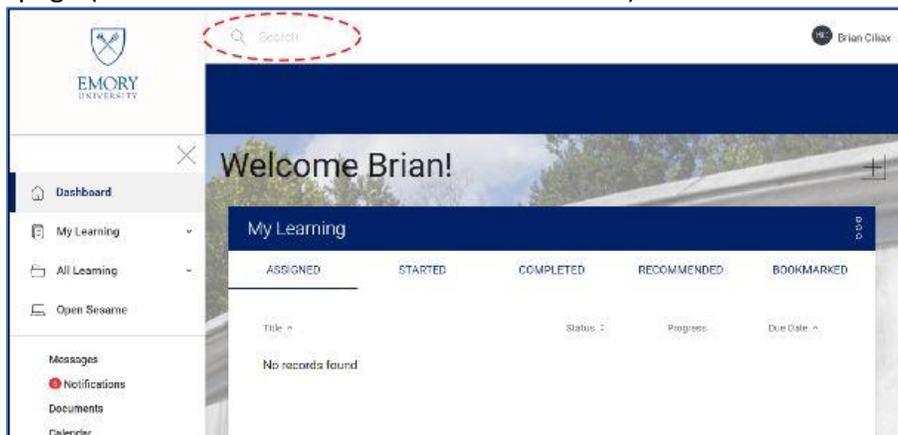

1. Log into [Emory's HR Self-Service system](#)
2. After signing in, click on the "Learning Management" tile.

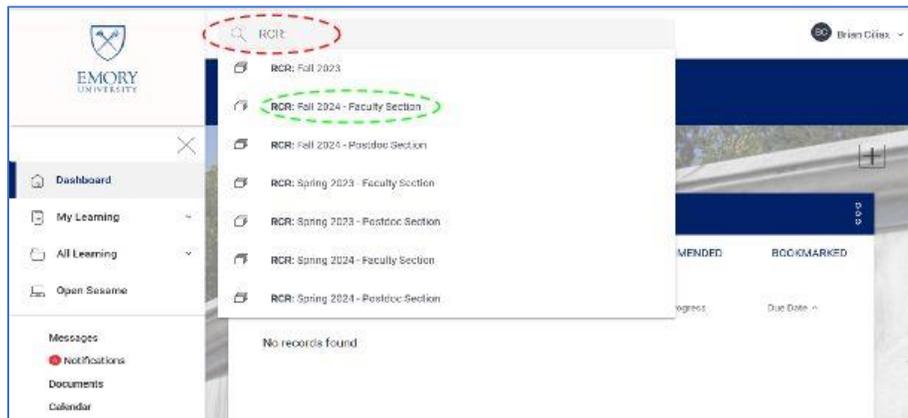

3. Select the Brainer Platform

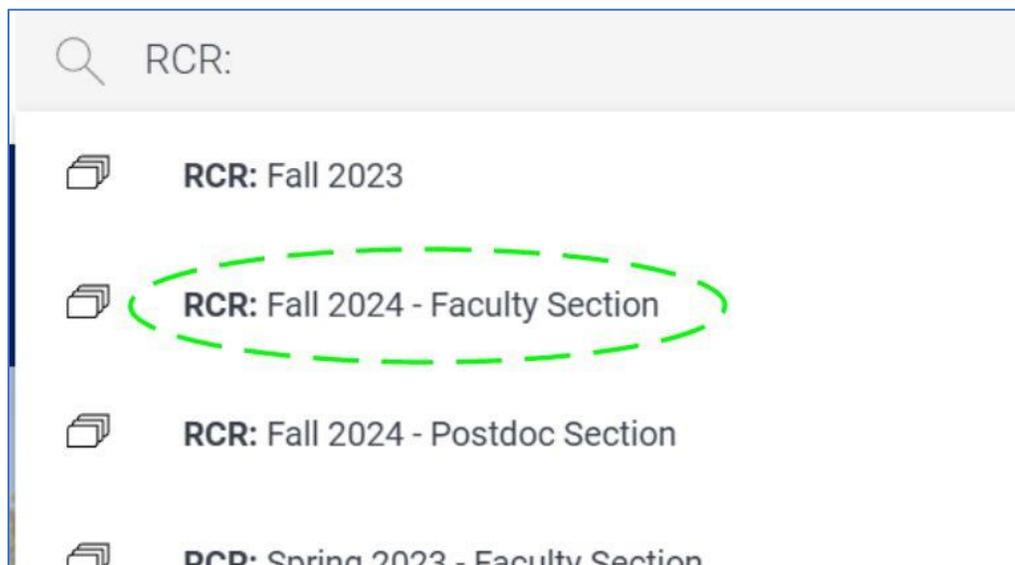

4. Go to the main dashboard (with the home icon) and use the search function at the top of the page (see red dashed oval in screen shot below).

5. Search for “RCR:” and review the pop-up list of suggested objects until you find your in-person training (called a “curriculum object”; be sure to include the colon (“:”) after “RCR” in your search term, which will filter out many other types of objects).

6. Click on one of the sections (either “Faculty Section” or “Postdoc Section”) of the upcoming semester’s course (see for example the item encircled by the green dashed oval in the screenshot above, which is enlarged below).

7. This will take you to the curriculum object's "Request Access" page. Click on the "Request Access" button (see button in lower left of screenshot below) to request registration for the course (called "Pre-approval" in Brainier). **Please remember you are committing to attending all the training dates by signing up. You will not receive credit if you miss one of the sessions.**

RCR: Spring 2023 - Faculty Section

Author: Brian Cillax, Beverly Medley, Maria Del Carme Davila, Aryeh Stein

Length: 10 hours

NOTE 2: You will be expected to make up missed session(s) in an upcoming semester. Be aware that the two topics covered in a tandem session of classes in this semester (i.e., initially held on the same day), will not necessarily be paired again on the same day in a subsequent semester.

NOTE 3: Whenever you complete the entire course and thereby earn your certificate, the 4-year countdown until you need to re-take the course (if you are still in the same career phase (e.g., postdoc vs. faculty)) will have begun the earliest semester in which you completed a course requirement (class, homework assignment, final quiz), not the semester you completed all requirements.

NOTE 4: If you advance to a new career phase (e.g., a postdoc being promoted to a faculty member), you need to re-take the course, this time in the faculty section rather than in the postdoc section.
